

Getting Started with Schoolology for Students

Your teacher may be using a Learning Management System (LMS) called Schoolology to create classroom resources and activities and to do assessments. To access your Schoolology assigned class(es), follow the directions below.

1. Go to the WCPS website and click on the SSO Portal link:
2. Login using your WCPS Google Account.
3. Click on the Schoolology icon.
4. Click on the “Courses” menu to see a list of your assigned courses.

5. Click on a course tile to open it and find classroom materials. Learning resources and activities will be available in the center column of the page.
6. The right column will display upcoming assignments or events.
7. Your teacher will share specific information about how to access the materials and activities needed for your class.

The screenshot shows a course page with three items:

- Enhancing Instruction with Embeddable Content**: A folder icon with a callout box that says "Click on the folder to view assignments."
- Choose Your Own Exit Slip**: A discussion icon with a callout box that says "This is a discussion assignment. You will read and respond, like a social media post." Below the title, it says "Review the Exit Slips Below Choose one and respond in the discussion. Due Tuesday, September 19, 2017 at 11:59 pm".
- Please Provide Some Feedback**: A link icon with a callout box that says "This could be a link to a website."
